**Subject:** RE: Medical Device Reprocessing minimum grade change

Hi Elizabeth,

Medical Device Reprocessing, with the 60% pass rate, it will align with all of the health sciences programs in the school, and also the community members have recommended the pass rate be 70% or more, although at this time we feel it is best to align with the school of health sciences at 60%.

Hope this helps.

Thanks  
Anabela

**Subject:** Medical Device Reprocessing minimum grade change

Good Morning Anabela,

We have received your request to change the minimum grade for the Medical Device Reprocessing program from a "D" to a "C". Tracy has followed up with Gary Lima and he would like to see some sort of rationale for the change before he will approve. The rationale can be provided via email.

Thanks,

Elizabeth
